B. Learning Application

How to use our resources effectively?

- Read and Review
 - Read through our study plan and understand the main areas of study and resources available for your study as we have set a thematic coverage to give you a scope of knowledge on this issue. Examine the trend development, characteristics and impacts of youths.
- Reflect
 - When you read, reflect on how you can enrich your knowledge, develop better expression, develop causation and cultivate arguments. Cultivate the intellectual and inquisitive mind for learning.
- Practice
 - Practice the questions without looking at our answers and check through the answers and assess your errors. Learn how you can derive the requirements of the questions and how to structure and write to answer it.
- Expand
 - Develop the intellectual mind to expand your scope of learning by linking other related areas. Understand what you learn from our latest development regarding youths.
